Inverters Product Line

SSD110 - Solid State Drive 1.8kva – 3.6kva / high frequency

Code 70159 SSD110/15 Solid State Inverter Low HZ range
120/240vac 25 amp input single phase 15 amp RMS output.

DAT210 – Auto Tune Inverter

DAT210 The new Micro-controller design that automatically determines the optimum system operating frequency (resonance). This product makes high-efficiency self optimizing systems available to everyone.

[PRODUCT DETAIL](#)

DAT210 – Inverter Assembly

The DAT210 inverter assembly simplifies assembly and solves several circuit problems that shorten component life.

[PRODUCT DETAIL](#)

Unico digital Inverter

The 1105 digital AC inverter provides flexible, efficient, and cost-effective solutions to a range of control needs. It combines the latest IGBT-based PWM and digital signal processor technologies with a revolutionary, patented digital current regulator to deliver optimum performance, full programmability, and simplicity of operation.

**Matching Components for Inverters.
Resonant Systems Components Medium/High
Frequency**

Designed to provide maximum efficiency by allowing digital pulse drive by SSD and ATI series inverters. Magnetic package converts pulse waveform to sine wave on cells for energy efficient operation. Designed specifically for harsh electrical and environmental demands..
